

Steric Control on Photoinduced Electron Transfer Processes

**Thesis submitted for the degree of
Doctor of Philosophy (Science)
Of
Jadavpur University
2004**

**By
Suchandra Chatterjee (nee Bandyopadhyay)
Chemical Sciences Division
Saha Institute of Nuclear Physics
1/AF, Bidhannagar,
Kolkata - 700064
India**

Contents

1. Chapter I	1 - 93
1.1 Prologue	1 - 3
1.2 Steric factor	4 - 17
1.2.1 Introduction	
1.2.2 Estimation process	
1.2.3 Impact on photochemistry: examples	
1.2.4 References	
1.3 Photoinduced electron transfer process	18 - 52
1.3.1 Introduction	
1.3.2 ET: An overview	
1.3.3 Inter and intra-molecular PET: examples	
1.3.4 Remarks	
1.3.4 References	
1.4 Magnetic field effect	53 - 93
1.4.1 Introduction	
1.4.2 Spin dynamics	
1.4.3 Diffusion dynamics	

1.4.4 *Variety of MFE study: examples*

1.4.5 *Remarks*

1.4.6 *References*

2. Chapter II

94 - 98

Scope of the thesis

3. Chapter III

99 - 110

Experimental techniques

3.1 *Introduction*

3.2 *Absorption spectrophotometer*

3.3 *Fluorescence spectrophotometer*

3.4 *TCSPC spectrophotometer*

3.5 *Laser flash photolysis technique*

3.6 *PSD system*

3.7 *PCmodel Serena 1993 software*

3.8 *Materials*

3.9 *References*

4. Chapter IV

111 - 135

Steric control on dynamics of ET

4.1 *Preface*

4.2 *Steric guided change of ET mechanism in benzene*

4.3 Unique ET mechanism in N, N-dimethylformamide

4.4 Remarks

4.5 References

5. Chapter V

136 - 165

Steric control on exciplex formation

5.1 Abstract

5.2 Introduction

5.3 Systems and techniques involved

5.4 Results and discussion

5.5 Remarks

5.6 References

6. Chapter VI

166 - 188

Steric control on magnetodynamics

6.1 Abstract

6.2 Introduction

6.3 Systems and techniques involved

6.4 Results and discussion

6.5 Remarks

6.6 References

7. Chapter VII

189 - 206

Steric control on excimer formation in linked D-A system

7.1 Abstract

7.2 Introduction

7.3 Systems and techniques involved

7.4 Results

7.5 Discussion

7.6 Conclusion

7.7 References

8. Chapter VIII

207 - 218

Future prospects

8.1 Exciting future

8.2 Epilogue

9. Bibliography

219

List of publications

10. Reprints

220
